

## VILLAS & ROOMS

Step into our peaceful resort where each villa offers a stunning panorama of the Bitung and Lembeh Straits.

Located in Kelurahan Kelapa Dua which literally means 2 coconuts, nature lovers will enjoy the lush greenery because we took great care to minimize our impact to the environment.

The traditional Mihanara Architecture adds a rustic charm to these hand-crafted villas while the wooden interior lets you unwind without compromising on modern amenities.

As a boutique resort, we host a maximum of 12-15 guests so that you get personalised services with the best care.

We are committed to provide each guest with a safe and serene stay coupled with a unique and unforgettable diving experience.

We pledge to contribute a portion of our earnings to support the local community, primarily meeting educational needs at the Kelapa Dua Village.

# K2 LEMBEH DIVE RESORT

peaceful . wonderful . delightful

## GETTING HERE

Fly to Sam Ratulangi International Airport (MDC), Manado, Indonesia

- Singapore via Scoot
- Indonesia (most major cities)

Check with your travel agent for flight routes or inquire with us.

Our friendly staff will meet you personally at the airport and make all arrangements for a hassle-free trip. The trip by highway will take just under an hour.

K2 DIVE RESORT

# THE MUCK DIVING CAPITAL OF THE WORLD

## DIVE HAVEN

### Lembeh Dive Sites Famed Macro Dives

Entering into the water, the diver will come across a mostly sandy bottom, with good but not great visibility... "what am I doing here?"

Soon our masterful dive guides will bring you face-to-face with the world's weird critters for that is what Lembeh is often called, "Weird Critter Capital of the World!"

Dive after dive, you will encounter ever delightfully strange looking creature, found in very few places in the world, yet in abundance in the unique sea-scape that has Lembeh world famous.

The Hairy Frogfish, the Pygmy Seahorse, wonderpus, mimic octopus, are just some of the new friends you might meet at these most famous dive sites at the Lembeh Straits.

Want some blue water dives? No problem! Make a trip to the other end of the Lembeh island, at Pulau Dua. Or make day trips to dive at the blue waters of Bunaken National Park.

## SURFACE INTERVALS

Head back to the serenity and privacy of our K2 resort for a break in between dives.

A short distance away is the Tangkoko Batuangus Nature Reserve where exotic animals and plants thrive. The small nocturnal primate, the spectral tarsier (right picture), is a rare sight in the world.

You could also choose to head out to Tomohon Highlands for a glimpse of lakes and landscapes shaped by volcanos. Soak in the local life in Manado by observing the making of traditional Minahasa wooden houses and savoring the delicious local food.
